

**PARTICIPATE
IN THE ENERGY
TRANSFORMATION
OF CUBA AND THE
CARIBBEAN**

Supported by:

Organised by:

With the support of:

The objectives

- 1.** To promote the bioelectric programme
- 2.** To promote cooperation between the European Union and Cuba and the Caribbean
- 3.** The creation and development of the university network of Cuba in the Caribbean
- 4.** To support the development of the Cuban solar thermal energy programme

Our future

The objective of the Cuban government is to increase the share of renewable energy sources in the generation of electricity from the current 7% to 37% by 2030

BIOMASS

Install 612 MW in 17 bioelectric plants by 2030

WIND

Install 807 MW at 13 Wind Farms, with capacity factors of over 30 %

SOLAR PHOTOVOLTAIC

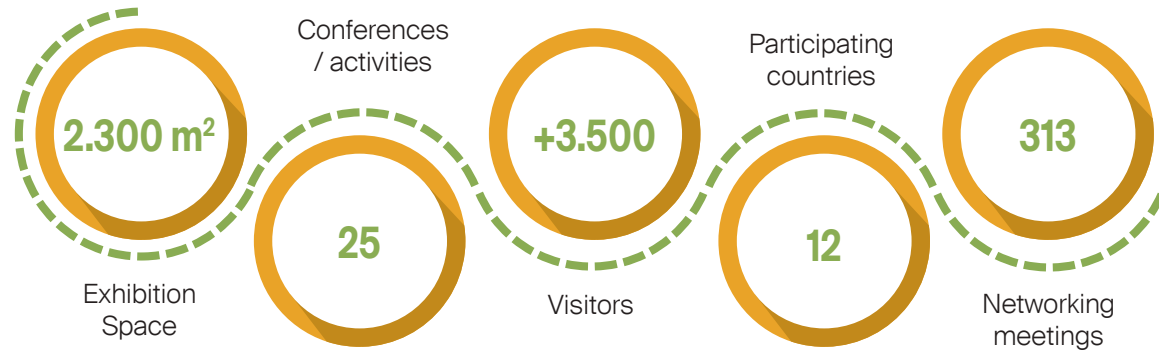

Install 2104 MWp in photovoltaic Solar Parks until 2030

HYDROPOWER

Construcción of 74 Small Hydroelectric Power Plants with more than 56 MW

Key figures from 2018

Sectors represented at the trade fair

- Raw materials, equipment and component manufacturing
- Energy production and its accumulation
- Investment evaluation, promotion and development
- Electric Transportation and distribution
